- WARNINGS**
- To reduce the risk of serious injury, please read this user guide carefully. Keep these instructions for future reference.
- Do not use this rack for support while stretching or doing other exercises.
 - Do not attach resistance bands, ropes, or any other such objects or accessories to this rack, as doing so may result in serious injuries.
 - This equipment should be regularly inspected, and its parts tightened. Do not use it if any of its parts are worn out or damaged.
 - Worn-out or damaged parts should be replaced immediately. Do not use this equipment until all damaged parts are repaired or replaced.
 - Always keep children and pets away from this equipment.
 - This equipment is intended for indoor use only. Keep it indoors, away from water, moisture, and other liquids.
 - Place this equipment on a clean, flat, and level surface.
 - This equipment is designed for domestic use only. Do not use it in a commercial, rental, or institutional setting.

DISCLAIMER

Always use caution when setting up or using this equipment. This equipment should only be used by people in full possession of their physical and mental capabilities. The use of any fitness equipment involves the potential risk of injury. By using this equipment, you accept and assume full responsibility for any and all injuries, losses, and damages (both economic and non-economic) that may or may not occur. Furthermore, you fully and forever release and discharge this brand and all of its associates from any and all claims, demands, damages, right of action, causes of action, present or future, whether the same be known or unknown, anticipated or unanticipated, resulting from or arising out of the use of this equipment.

Parts

Step 1: Attach Anti-Slip Feet to the Base Frame

Screw each of the Anti-Slip Feet into the Base Frame and set it to level. The Base Frame should stand securely without shaking.

Step 2: Attach the Support Bracket to the Base Frame

Place the Support Bracket over the Base Frame and tighten the Carriage Bolts to install. The Support Bracket should not shake once installed.

Step 3: Attach Trays to the Support Bracket

Place a Tray on top of each of the Support Bracket's arms. Tighten the Long Screws using the Nuts and Gaskets to install. Make sure the screws are securely tightened, and that the Trays do not shake. Insert a Tray Mat inside each Tray.
